- The total amount of provincial-federal relief that would be provided is more than **\$900 million**, helping to ensure small businesses are ready to reopen their doors when the emergency measures are lifted.
- The OCECRA will provide **forgivable loans** to eligible **commercial property owners** experiencing potential rent shortfalls because their small business tenants have been heavily impacted by the COVID-19 crisis.
- To receive the loan, property owners will be required to **reduce the rental costs of small business** tenants for **April to June 2020** by at least **75 per cent** and commit to a moratorium on evictions for three months.
- It is expected that the program will be operational by **mid-May**.
- The forgivable loans would be disbursed directly to the mortgage lender of the commercial property in question.
- As part of *Ontario's Action Plan: Responding to COVID-19*, the Government has implemented a series of cash flow supports amounting to **\$10 billion** to help support jobs and the economy (see [March 25<sup>th</sup> - Ontario's Action Plan: Responding to COVID-19 \(March 2020 Economic and Fiscal Update\)](#) for details) .
  
- How does the program work?
  - The program has been developed to share the cost between small business tenants and landlords.
  - Small business tenants and landlords would each be asked to pay **25 per cent of the before profit costs** and the provincial and federal government would cost **share the remaining 50 per cent**.
  - The **loans will be forgiven** if the mortgaged property owner agrees to reduce the eligible small business tenants' rent by at least 75 per cent for the three corresponding months under a rent forgiveness agreement, which will include a term not to evict the tenant while the agreement is in place.
  - In applying for this program, the property owner agrees to **forego profit for a three-month period**.
  
  - For example, a monthly rent for a small business is \$10,000. In this example, assume the landlord doesn't make a profit. The landlord forgoes \$2,500 (25 per cent of rent). The small business would be responsible for paying \$2,500 (25 per cent of rent). The government would cover the remaining \$5,000, with \$3,750 from

the federal government (37.5 per cent of rent) and \$1,250 (12.5 per cent of rent) from the provincial government.

- How long would a commercial property owner have to apply for OCECRA?
  - The OCECRA would be administered by the Canada Mortgage and Housing Corporation (CMHC) and would **be available until September 30, 2020**.
  - Support would be retroactive to **April 1**, covering April, May and June 2020.
  
- What are the eligibility requirements for small businesses?
  - An eligible small business tenant is one that:
    - Pays monthly **rent not exceeding \$50,000** in gross rent payments; and is,
    - A non-essential small business that has temporarily closed, or who is experiencing a 70 per cent drop in pre-COVID-19 revenues (determined by comparing revenues in April, May or June to the same month in 2019 or alternatively compared to average revenues for January and February 2020).
    - Generate no more than **\$20 million** in gross annual revenues, calculated on a consolidated basis (at the ultimate parent level) \*\*
    - \*\* To measure revenue loss, small businesses can compare revenues in April, May and June of 2020 to that of the same month of 2019. They can also use an average of their revenues earned in January and February of 2020.
    - Not-for-profit organizations and charitable entities would also be considered for the program.
  
- Are there any eligibility requirements for commercial property owners?
  - The OCECRA would apply to commercial properties with small business tenants.
  - Commercial properties with a residential component, and residential mixed-use properties with a 30 per cent commercial component, would be equally eligible for support with respect to their commercial tenants.
  - If a property owner does not have a mortgage secured by a commercial rental property, the property owner should contact Canada Mortgage and Housing Corporation (CMHC) to discuss

  - Ensure that the CEWS applies appropriately to corporations formed on the amalgamation of two predecessor corporations and

- For more detailed information on the May 15<sup>th</sup> updates please visit: <https://www.canada.ca/en/department-finance/news/2020/05/extending-eligibility-for-the-canada-emergency-wage-subsidy.html>
- Helpful Infographics:

- o *Details:*
  - i. **75%** wage subsidy for qualifying businesses retroactive to **March 15, 2020**.
  - ii. **Eligible employers would include** individuals, taxable corporations, partnerships consisting of eligible employers, non-profit organizations and registered charities.
  - iii. **Eligible remuneration** may include salary, wages, and other remuneration like taxable benefits.
  - iv. This subsidy would be available to eligible employers that see a **drop of at least 15 per cent of their revenue in March 2020 and 30 per cent for the following months**.
  - v. An employer's revenue for this purpose is its revenue in Canada earned from arm's-length sources.
  - vi. Would apply at a rate of **75%** of the first **\$58,700** normally earned by employees – representing a benefit of up to **\$847** per week.
  - vii. The easiest way to apply for the CEWS is through [My Business Account](#) or [Represent a Client](#).
  - viii. CEWS claims will be subject to verification by the CRA. **Funds for approved applications will begin to be released on May 5<sup>th</sup> appearing in employers' accounts starting May 7<sup>th</sup>**.
  - ix. The pre-crisis remuneration for a given employee would be based on the average weekly remuneration paid between **January 1 and March 15** inclusively.
  - x. There would be no overall limit on the subsidy amount that an eligible employer may claim.
  - xi. Eligible employers would include **employers of all sizes** and across all sectors of the economy, with the exception of public sector entities.
  - xii. Beginning **April 27, 2020**, certain financial institutions will offer **CRA direct deposit online enrolment for business payroll accounts** through their websites, helping businesses get their payments quickly and securely.
  - xiii. Employers can sign up for direct deposit with their financial institutions even after applying for the CEWS.
  - xiv. Visit [Canada.ca/cra-direct-deposit](https://Canada.ca/cra-direct-deposit) or your financial institution's website for more information.
  - xv. If employers are not registered for direct deposit, they should allow additional time for their cheque to be delivered by mail to the address on their payroll account (RP).
  - xvi. Canadians can receive the CEWS wage subsidy or the Canada Emergency Response Benefit (CERB) — not both.

**Revision Update: May 25<sup>th</sup>, 2020 @ 4:30PM**

---

- xvii. **100% refund** for certain employer-paid contributions to Employment Insurance, the Canada Pension Plan, the Quebec Pension Plan, and the Quebec Parental Insurance Plan.
  - xviii. This refund covers 100% of employer-paid contributions for eligible employees for each week throughout which those employees are on leave with pay and for which the employer is eligible to claim the CEWS for those employees.
  - xix. Employers would be allowed to calculate their revenues under the accrual method or the cash method, but not a combination of both. Employers would select an accounting method when first applying for the CEWS and would be required to use that method for the entire duration of the program.
  - xx. For **registered charities and non-profit organizations**, the calculation will include most forms of revenue, excluding revenues from non-arm's length persons. These organizations would be allowed to choose whether or not to include revenue from government sources as part of the calculation. Once chosen, the same approach would have to apply throughout the program period.
- o In order to address the realities faced by the **not-for-profit sector, high growth companies and new businesses**, the Government has allowed for additional flexibility:
    - To measure their revenue loss, employers have the flexibility to compare their revenue of March, April and May 2020 to that of the same month of 2019, or to an average of their revenue earned in January and February 2020.
    - In recognition that the time between when revenue is earned and when it is paid could be highly variable in certain sectors of the economy, employers be allowed to measure revenues either on the basis of accrual accounting (as they are earned) or cash accounting (as they are received).
  - o All employers would be expected to at least make best efforts to top up salaries to 100% of the maximum wages covered.
  - o Those organizations that do not qualify for the Canada Emergency Wage Subsidy may continue to qualify for the previously announced wage subsidy of 10 per cent of remuneration paid from March 18 to before June 20, up to a maximum subsidy of \$1,375 per employee and \$25,000 per employer (see [10% Wage Subsidy](#) for more details).

**Revision Update: May 25<sup>th</sup>, 2020 @ 4:30PM**

- For employers that are eligible for both the CEWS and the 10 per cent wage subsidy, any benefit from the 10 per cent wage subsidy for remuneration paid in a specific period would generally reduce the amount available to be claimed under the CEWS in that same period.
