

Job Posting - Digital Service Squad Team Member

The Ontario Digital Main Street Initiative expands the previously existing Digital Main Street program developed in partnership by the City of Toronto and the Toronto Association of Business Improvement Areas (TABIA). Thanks to a renewed investment in the Ontario Digital Main Street program from both the federal and provincial governments, even more of the province's main street small businesses will be able to take full advantage of digital technologies and e-commerce platforms to increase their revenues and create jobs.

The four main components of the Ontario Digital Main Street program include:

- 1. Digital Transformation Program:** Upon completion of their digital assessment and online training, businesses may apply for a \$2,500 grant to offset costs as outlined in their Digital Transformation Plan and budget. These funds are available to help businesses strategically adopt technology and meet their digital goals.
- 2. Digital Service Squad Program:** Digital Service Squads are digital technology specialists in an area or region of Ontario who deliver one-on-one assistance to main street small businesses. These Digital Service Squads can be set up by BIAs, municipalities, Chambers of Commerce or Small Business Enterprise Centres that may apply for funding based on the number of businesses within their designated commercial downtown area.
- 3. Access to Support:** Ongoing support including access to basic digital services, a list of vendors that can identify technologies and tools businesses need to be digitally ready, and other resources such as assessments, articles, best practices, etc.
- 4. Digital Training (online and in-person):** Webinars and workshops focusing on specific digital technologies and strategies, including e-commerce, social media, and website development.
