

NOTICE TO PROPERTY OWNERS ON AND IN THE AREA OF DIBBLE ST. EAST

This notice is to advise you that the reconstruction of Dibble St. East will begin shortly. Construction is scheduled to begin the second week of April with the placement of new watermain (isolation) valves at the intersections, followed by installation and testing of the temporary, overland watermain. The bulk of the reconstruction, including roads, sewers, watermains and grading is expected to begin at the beginning of May. Residents should be aware of the increase in construction traffic and noise, including mechanical rock breaking, which is anticipated. The contract completion date is scheduled for September 2022.

In the coming days, you will be contacted by **Oza Inspections Ltd.** to complete a pre-construction survey. The purpose of the survey is to obtain video and/or photo records of the existing condition of buildings near the construction zone. This information would then be available for reference in the unlikely event that damage is caused to the building during construction. The contractor will be required to implement all Covid-19 protocols, established by the EOHU for yours and their safety, upon entering your home.

During construction, it will be necessary to partially or completely close sections of Dibble St. East for extended periods of time, to allow for the construction of new infrastructure. Temporary traffic and/or detour signs will be posted as required. The Contractor will also be coordinating temporary water shutdowns, temporary driveway closures, etc. with the residents directly impacted by this work.

Also, please note, that you are invited to attend a virtual meeting and information session, being held this upcoming Tuesday, April 20th @ 5:00PM. In attendance will be representatives from the Town of Prescott, The Contractor (Ken Miller Excavating) and The Engineer (EVB Engineering) to discuss the project and answer questions from concerned residents. The Goto Meeting link for the virtual meeting is noted at the end of this document.

We are sorry for any inconvenience this may cause you, and we thank you for your understanding.

Should you have any questions or concerns with the above, please contact the Town of Prescott and/or EVB Engineering:

Josh Gowsell, C.E.T.
Contract Administrator
EVB Engineering
Telephone: 613-861-0153
Email: josh.gowsell@evbengineering.com

Nathan Richard, P. Eng.
Interim Director of Operations
Town of Prescott
Telephone : 613-925-2812 Ext. 6208
Email : NRichard@prescott.ca
