72	I mentioned that the town square clock tower area has huge potential. This area should be the heart of downtown yet it feels desolate and under utilized. Bringing back the historic pavilion - only now seen in a mural on the drug store wall would be a huge boost to the community. The downtown core needs a unifying identity on King St. This could be a beautiful area again for local produce, artisans, and community events. It would also be lovely to see fundraisers to give an historic facelift - fresh paint/ temporary window murals - to forgotten building facades on king street. Working with local land owners downtown to create unified historic core building and potential retail facades will attract buyers, artisans, businesses and residents. We moved to a beautiful stone home on Dibble St last fall because we wanted to settle in a historic community. We are both following our career paths but are also artisans. I am an artist, weaver, spinner. My husband is a wood turner and artisan blacksmith. This community feels like it's on the verge of becoming a fantastic destination must stop along highway 2. So much development has been done on the water which is incredible! King St. would be a great focus point for further consideration.	10/13/2020 9:54 AM

Q11 There is a large vacant land area in the Town located east of the Independent Grocer and south of Highway 401. The Town's current Official Plan designates this area for Highway Commercial uses immediately adjacent to Highway 401, and Residential uses further south (see images). What types of land uses should be located here in the future, and where should the boundary between commercial uses and residential uses be?

Q18 The Town's Community Improvement Plan (May 2018) offers grants for property owners to encourage conservation of designated heritage buildings within "Area 3", which includes the Downtown Core and residential areas south of the railway corridor (see map). Under the current CIP, property owners can apply for grants to assist in improving a building façade, building accessibility, or interior building elements, as well as a reimbursement for architectural / engineering reports and permit fees. What other ways can the Town further encourage conservation and preservation of commercial and / or residential designated heritage buildings?

5	I think the town should have the Heritage Committee/Ec Dev person/Building CBO contact every building owner downtown a minimum of every 2 years to discuss ways to preserve the building facade or building elements that are important to the town's heritage instead of allowing building owners to let their buildings rot away losing key historical features. By doing a 2 year review with both the Heritage committee, they can discuss the key historical features that should be preserved and the Economic Dev. person can review possible CIP options, grants etc. for the owners so the buildings can be kept up. Preserving the Historical features plus keeping the residential and commercial properties regularly reviewed gives the town's building/bylaw dept, Ec Dev, fire dept up to date on the buildings condition. A building in it's best condition provides better tax revenues and better resale value. Buildings should not be allowed to sit empty for years and years (i.e. 196 King St W has been empty for over 10 years, what kind of shape is it in now after that many years? It should be torn down to make room for a high rise apartment building similar to the one being built). More residents living downtown require more downtown services and stores.	10/30/2020 10:58 AM

3	I'm hoping the waterpark/convention centre goes through, because we need winter water recreation closer than Brockville. I don't know where you'd put it, but we really need an off-leash dog park with trails (not just a small space) and we really need to clean up and use the east side of where the golf course exists. Behind the golf course there's lots of nice space, but it's full of trash. It would be nice to see some community gardens to support the food bank and teach people how to grow their own food. A lot of the green space around Prescott is underutilized because there's not enough cultural organization. Paid community workers would help boost intelligent park use; people with skills who can teach others, and make a contribution to the community at the same time.	10/29/2020 4:46 PM

22	Wherever there are nice, safe well laid out walking/cycling paths that have some length to them. Interlinking certain parks, and making loops would help. Right now, I don't even feel safe riding my bike INTO Prescott from the outskirts of town on Highway 2. 1	Town entrances off highways & downtown at street corners with direction arrows	10/30/2020 5:05 PM
2	Corner of Centre and King. Seemed safer before. Trail in Wellington woods, signage for path entry on Churchill and Boundary	10/30/2020 4:00 PM
3	Signs in town are suitable, but perhaps investing in more 401/416 signage with business names etc so travelers see there are restaurants, retail etc that they may want to stop at here in town.	10/30/2020 11:05 AM
4	Biggest problem is consistency lots of signs but all different styles and wording using a more universal system like is used in PQ would help.	10/30/2020 10:49 AM
5	For splash pad Rotary pavilion New area	10/29/2020 5:41 PM
6	well designed by talented and sensitive designer, not electronic but in area where lights shine on it at night, direction to Portolano and museum there and other locations where visitors go - e.g. golf course, Forwarders Museum, readable when driving i.e. not like one south of railway overpass, showing amenities, walkways, gardens etc. on the River - the River people can see for themselves unless of course if the River ever gets designated as an official Canadian Heritage River (application already in for consideration)	10/29/2020 4:59 PM
7	The signage into and out of the east end of town is very confusing. 40 to 50 to 60 to 80 km/hr within a short span. A sign at the east end of town indicating that Fort Wellington is on the left would be useful. Banners are nicer than signs. Please make sure that signage doesn't obstruct sightlines for drivers. The Covid sign at the east end of town obstructs sightlines for people turning off Boundary onto Highway 2.	10/29/2020 4:52 PM

#	RESPONSES	DATE
1	I'm rooting for growth and resurgence of tourism activities that focus on the history and waterfront, appeals to family/kids.	10/30/2020 6:13 PM
2	This may not be part of official plan, but I think any further "devices" like speed bumps etc. are not necessary & would deter tourists or visitors. The speed reduction to 40km/hr was not necessary	10/30/2020 5:09 PM
3	Work to get the vacant buildings downtown renovated or demolished. They have been left vacant way too many years and really look bad (196 King St W, old Prescott Journal building, Doyle building)	10/30/2020 11:07 AM
4	If the Town does not intensify land use, the town will not survive long term. As the Town has no currently plans to expand or merge with neighboring lands, tax base can not grow effectively with current or past residential policies. Too many parks sit empty and not used because there is no need for them with current population. Think of the views if a person had an 8 storey apartment building near the river or off the river but still south of the tracks. Think of the number of commuters that could call Prescott Home if there were condo's in a 10 plus storey building with easy access on to the 401/416?	10/30/2020 10:54 AM
5	I would like to see our town promoted more as a lovely, economic place to live less than an hour from Ottawa, Kanata etc	10/29/2020 5:44 PM
6	Please ensure meaningful, congenial public involvement that includes seniors, children and young people; people need to know how serious this is and seek an evidence-based well researched approach by our professional planners.	10/29/2020 5:11 PM
7	I really like Prescott. I've lived here for 3 years and plan to spend my retirement here. I'd like to see students more active in the community, perhaps encouraged to do their community placements in town parks. I also think we really need to educate people to keep streets and parks clean - but in a nice way. Preserve our environment. Some 'please keep our town litter free' would be nice. (Sorry, should have said this in earlier section.) I'd also like to see more seating areas for walkers in the downtown core, along King Street, where people can eat their lunches/ice cream etc.	10/29/2020 4:57 PM
8	Please keep Prescott historic. Over modernization is detrimental to identity and mental health of residents.	10/28/2020 11:24 PM
9	I would like to see that the community will continuously improve and more residents will stay all year in Prescott.	10/28/2020 8:10 PM
10	Make our public spaces, safe, user friendly, and accessible for all age groups from tots to seniors. A balanced and integrated community is better than separating active areas aimed at one demographic from another.	10/28/2020 3:22 PM
11	I appreciated the video beforehand as "Official Plan" is often unknown to many of its' purpose & function.	10/28/2020 11:37 AM
12	Initiate noise pollution control and enforcement	10/28/2020 10:05 AM
13	Prescott really needs help!	10/28/2020 8:53 AM
14	Lower downtown taxes to encourage more unique business. Stop replicating the same business types. This has happened with coffee shops, candy shops, and now chip trucks. Give the first company a chance to succeed and stop the turnover of stores downtown.	10/27/2020 1:16 PM
15	Keep taxes low, improve thru efforts not major funding, encourage volunteers, attract businesses which will train and employ the younger generation. Improve schooling especially technical training. Sped less on bells and whistles. Water tower a need an area a want, charge fees for out of town usage boaters at launch. Enforce noise restrictions - better policing less drive arounds more foot patrols.	10/27/2020 9:21 AM
16	"Outdoor Pickleball courts" Over 80+ Pickleball players could of enjoyed playing this summer.	10/27/2020 8:32 AM
17	Highway 2 is a touring route for people who enjoy a nice outing. You see loads of motorcycles in the summer, and people out driving this scenic drive. If you give them a reason to stop in Prescott, they will, especially if it looks and feels inviting. -Maybe enjoy a beer on a pub patio, or an ice cream or cotton candy by the waterfront... 21	The first step in revitalizing the downtown core should be moving the current waterfront pavilion further east in the park . seeking proposals of interest and development for said site to be a waterfront restaurant and small pier for small boat tours up and down the river (post in ottawa) also with free bicycles available to visitors to tour the town . This would add to more visitors to the town creating a base for future growth . This would cost the town very little , there is lots of underused land in the park and the parking plus the marina are right there .	10/24/2020 8:35 PM
22	While snow removal is a concern, I believe we should be encouraging citizens to put gardens in as much green space as possible. Also a youth centre that supports arts and activities would be amazing. We need to start looking how urban centres are adapting and get ahead of the curve - eg vertical farming, sustainable energy and reducing noise pollution. Let's make sure that we don't just grow in a business as usual fashion but are innovative and have long-term gains in mind.	10/24/2020 4:14 PM

26	Increase the value/services to residents or decrease the taxes. I cannot believe the amount of taxes we pay for the little we receive. At a minimum have the people who work at the Township be able to answer the question "What do we get for our taxes?"	10/18/2020 7:01 PM
27	you seriously, and I cannot stress this enough- you need to make a by-law that states property owners on king street must keep buildings kept up, primarily the ground level. So many other thriving towns have a by law like this and I truly believe it would benefit Prescott. If owners don't comply they get a warning and then fined. Please read this I'm begging you	10/17/2020 10:49 PM
28	I think we need to think about preserving our natural resources and considering alternative sources of energy. Also, programming that incorporates social + health issues and needs (e.g., our aging population, crime, addiction, mental health).	10/17/2020 10:16 PM
29	Need more housing for atomonis seniors	10/17/2020 8:18 PM
30	Promote tourism in Riverwalk area eg lighthouse at marina accessibility, museum about beer/liquor/ forwarding history	10/17/2020 11:26 AM
31	We don't need to live in Brockville's shadow . Prescott needs to be known as a thriving town and not for past historical negatives	10/17/2020 6:22 AM
32	Quite funny town, that's it	10/16/2020 10:49 PM
33	Okay...some time for Adult hockey. Your plans look well thought out. Keep up the good work. Keep it organized and offer an experience. I go to Walkerhouse..golden! Driving to Prescott from Brockville is a joy. Make me want more! Beautiful drive, your speed limits are bang on. Keep it slow and enjoy.	10/16/2020 8:25 PM
34	Would like to see more retail business and work opportunities as well as better use of our River. There is no place for boaters to mood outside a Marina to stop for lunch, ice, booze, etc. A few docks along the river would increase tourism and help support businesses.	10/16/2020 8:11 PM
35	To keep the waterfront areas free from commercial uses. For example hotels, stores etc	10/16/2020 2:11 PM
36	Skate Park should've have been built by waterfront like they do in California etc would get more use stupid spot for it no sidewalks to get to it dangerous for kids to walk to with all the transport traffic	10/15/2020 7:26 PM

Town of Prescott Official Plan Review Visioning Survey

37	What we do need are more rental properties such as apartments. There's really not much of this for the younger group.	10/14/2020 7:25 PM
38	get many 100 year old respondents ?	10/13/2020 9:20 PM
39	Greenspace and parks would be nice in the north end . More small businesses in the downtown area in existing buildings. Butcher, bakery , zero waste stores , indoor farmers market year round .	10/13/2020 12:28 PM
40	This community is stunning and the downtown core should reflect that. The core should promote community and to unity the town. Work with owners with frontages on King Street to revitalize the buildings that need assistance. This will attract new business and residents. Everyone feels more secure about investing in a community that is invested in itself.	10/13/2020 10:16 AM
41	need a hockey rink	10/12/2020 4:43 PM
42	Lower taxes downtown so that small businesses can survive.	10/12/2020 3:04 PM
43	Official plan works as a loose guideline.	10/12/2020 10:51 AM
44	It's about creating incentives for people to USE downtown. The neighbourhoods are great but King St, Centre St and others are a strip of garbage, run-down federal buildings and empty stores. Find a town workforce that is driven to improve our town (instead of walking over garbage to empty a garbage can for example) and attract new business (not another 2nd hand store) through Dragon's Den style programs where the town supports / mentors entrepreneurs who win the chance through presenting to the business community	10/11/2020 6:24 PM
45	Do not block view of river from current residents dith new development	10/10/2020 11:48 PM
46	Just do something , more housing needed	10/10/2020 10:16 PM
47	Keep in mind that if your going to intensify housing density ,no one wants their neighbour's looking over top of ,or into there back yards!	10/10/2020 1:23 PM
48	The downtown traffic situation is unfriendly to pedestrians and in my thinking bad for businesses. With the current all green light unless pedestrians require street crossing folks just cruise through the downtown ignoring the shops and restaurants. At present when driving on Main Street one has to be constantly looking out for people trying to cross the street at locations other than designated areas. Vacant buildings detract from the well kept store front clean windows would be an improvement.	10/10/2020 10:22 AM
49	Lower property taxes,,too expensive to live in this town	10/10/2020 9:30 AM
50	Bike paths. Bike paths on King and Edward and Boundary and Churchill and Sophia, and bike paths around the new arena and new developments in the north end. Build the bike paths into your plans for developments and road improvements. It's the best way to commit to a safe, healthy, modern town with a green outlook.	10/9/2020 11:51 PM
51	Prescott could be amazing - I'm thinking like Marrickville. Instead it's a seedy dump. I live there and am afraid to walk at night in the downtown. Sad really. Too many slum lords not willing to give up the public housing cash cow!	10/9/2020 9:00 PM
52	Find out what makes other small towns work and become destinations, see what fits for this town and stay true to its pluses and not fight against its historical value by going for gimmicks and fads. Like a water park convention centre, heck no. Make things fmaily friendly, for all ages, try to generate community support instead of divisiveness. My goodness I have witnessed some poor ignorant behaviour. What's with the 40km all over town? Why make that change?	10/9/2020 8:35 PM
53	Keep up the good work. The town has hope as long as the drug problem doesn't continue to follow in the tracks of downtown Brockville. I witnessed 2 drug deals while filling this out (meth/cocaine/etc, not weed). The police know about some of these places but can't do anything about it even when they catch them with drugs. Something needs to be done so that doesn't drag the town down.	10/9/2020 8:17 PM
